

**Overview**

In response to Chairman McNamara's May 27 letter to Commissioner Infante-Green, RIDE has compiled student attendance rate data by LEA, and by the elementary, middle, and high school level. There is a tab for one day in March, April, and May. There is also a column with the attendance rate on that date in 2019 for a historic comparison.

Additionally, there are tabs for attendance rates for students with Individualized Education Plans (IEPs), which we use as a measure for differently abled students. These are also broken down by LEA, and by the elementary, middle, and high school level. There is a tab for one day in March, April, and May. There is also a column with the attendance rate on that date in 2019 for a historic comparison.

LEAs report their data to RIDE on a daily basis for the previous day's student attendance. This allows for different attendance protocols LEAs and schools have implemented during Distance Learning. We have marked in yellow if LEAs have not provided data for a certain level.

RIDE  
Attendance - March

District Code	District Name	Attendance Rate	Attendance Rate
		3/26/2019	3/31/2020
