Subject: Transparency

Today the House Rules committee will consider H5006, H5007, H5008, H5009, H 5010, and H 5011, a package of bills aimed at improving and creating structures and systems to ensure accountability and a more open, accessible, and transparent process that allows for meaningful input from the public. I support these bills and believe their approval will benefit the residents of RI.
