Subject: Testimony in support of H 5146 for hearing Tues 3/2

To Chairman Solomon & members of the committee,

I write to you to urge your strong support for Rep. Morales' bill H 5146. Especially during the height of a public health crisis, this bill is crucial to helping the most at-risk people, their lives dependent on being able to afford their medication. Passing this bill will put Rhode Island ahead of most of the country, but in line with what much of the healthcare system's around the world are already doing. Most have agencies within their national health services that do exactly what this bill is proposing to do. Set a line of what patients can be charged, and if insurers' don't like it, they just lose out on an entire market, so threats to pull out of our marketplace are entirely empty ones. This is another bill that can make a real, tangible and material impact on the lives of Rhode Islanders throughout the state. I hope you will swiftly consider and pass it.

Thank You,

Jordan Goyette
