Subject: Testimony in support of H 5269

To Chairman Solomon & members of the committee,

I would like to urge your strong support of H 5269 from Rep. Perez, another piece of legislation that can be very critical for helping vulnerable low-income individuals during this pandemic. No one should lose their home over unpaid fees & taxes as small as water or sewer bills, especially during this time of great financial insecurities. This is especially timely as people in the communities like mine within Warwick & greater Kent County struggle with water billing problems at the county water authority. In Coventry there has been a well-known issue with sewer billing problems there. I know at least a few of the members of the committee are more than familiar with these issues, and I hope you all will move expeditiously on this legislation.

Thank You,

Jordan Goyette
