To Chairman Solomon & members of the committee,

I'd like to urge your strong support of a great bill from Rep. Potter to both increase our renewable energy production and improve the access of that clean power to more low-income communities. As the Ocean state, we should be moving swiftly towards progressive plans to get our state to 100% renewables and achieving net-zero emissions. This bill is a great step forward in reaching that goal to stave off the existential threat to us from climate change. There is no time to waste.

Thank You,

Jordan Goyette
