Subject: Testimony in support of H 5278

To Chairman Bennett & members of the committee,

I write to you today to urge support for Rep. Edwards bill to make long overdue changes to improve the composition and operations of the EFSB. After cases like what happened with the proposed Burrillville power plant, advocates have been fighting for years to get these kinds of changes. The public and local governments absolutely should always be included in these kinds of discussions. This is a quality bipartisan bill and I hope you will swiftly bring it up for consideration and recommend it to the floor with a vote of passage.

Thank You,

Jordan Goyette
