Subject: House Bill No.7171

I am writing on behalf of my mental health clients and myself in support of the above cited bill.

I am a clinical social worker with over thirty years of experience and have been able to continue to serve my clients population through telehealth during the Covid 19 crisis.

Many of my clients are medically compromised and without telehealth would be unable to receive medically necessary treatment.

In addition, I myself am over 60 and am considered to be in a vulnerable population.

Please consider this bill as it is essential to the well-being of many Rhode Island residents.

Thank you for your consideration of this matter.
