Subject: 2020 Rhode Island Budget

To Whom It May Concern:

As a resident of Rhode Island, I'd like to submit this public comment on the 2020 RI budget. The money for housing, fair wages, unemployment, strong public education, and more are already here! It is simply being misallocated to bolster the police, corporations, and the already very wealthy. Please put our state tax money toward initiatives that make people more safe and healthy, not more criminalized.

Thank you for your consideration.

Sincerely,
Beka Yang
