Subject: House Finance Meeting 7/21

Hello,

My name is Michelle Chrzanowski and I live at 22 Arch Street in Providence (Ward 11). I am writing in regards to the House Finance Meeting that is happening today. My comment on the issues at hand are that our tax dollars should be allocated towards affordable housing, fair wages, unemployment, and more community resources in order for our city to flourish from the inside out. The great thing is that the necessary funds are ALREADY HERE -- they're just being hoarded by police/prisons, corporations, and very wealthy people. You don't need me to tell you that's totally counterintuitive towards showing the world how great our city can truly be for those living in it. The money needs to go to people in need, not the institutions making our city an ugly place to exist and wealthy people who don't need to be hoarding it all for themselves.

Thank you for your consideration.
