**Subject:** Eleanor Hospital Shut Down...

It has been brought to my attention that Rhode Island mayor Raimondo is trying to shut down Eleanor Hospital and send all existing patients to different facilities. I ask that this not happen because I have a cousin that has survived to this point and is still in that hospital with the care of the wonderful staff at that location. I fear if he is moved to another facility they won't have the same care and might die. Please do not close down Eleanor Hospital because many folks lives depend on it.
