

Rhode Island State Innovation Model (SIM) Test Grant

Pursuing Healthcare Transformation

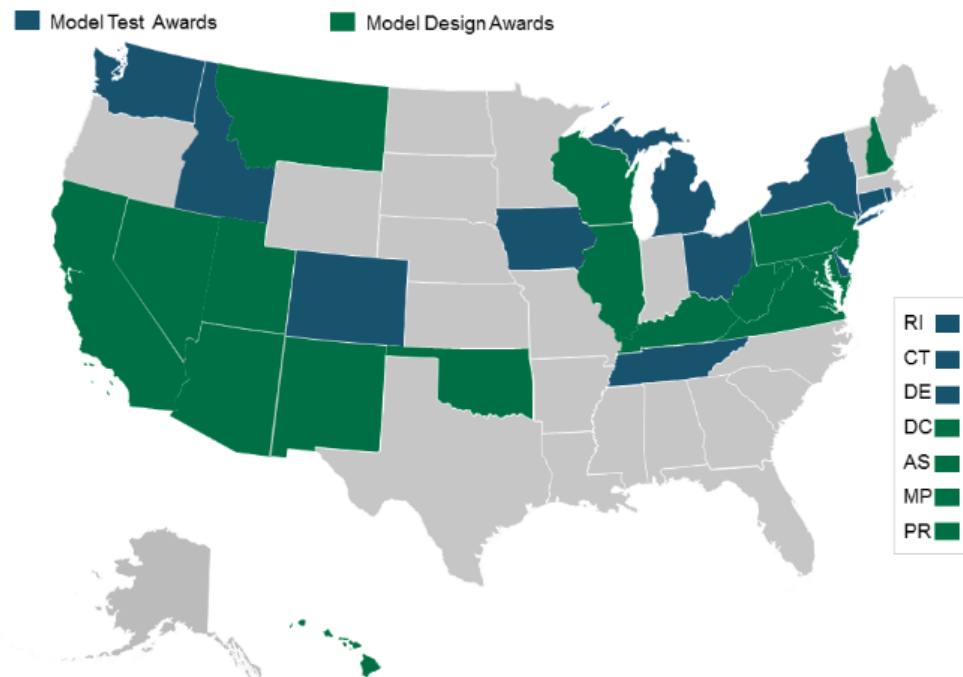

**Presentation at the Rhode Island Senate
Commission on Health Literacy**

Marti Rosenberg, SIM Project Director

November 15, 2016

SIM Background

- \$20 million grant from the Centers for Medicare and Medicaid Services (CMS)
- Transforms the way care is delivered and paid for
- Enhances the way individuals are engaged in their health

Source: Centers for Medicare & Medicaid Services

SIM Leadership

- SIM Steering Committee
- Interagency Team

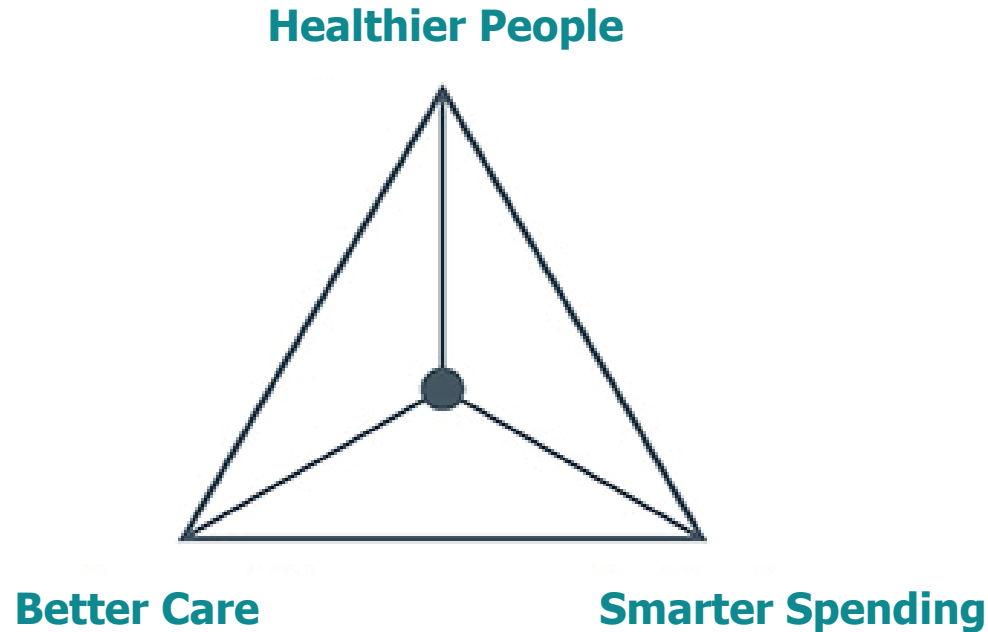

Medicaid

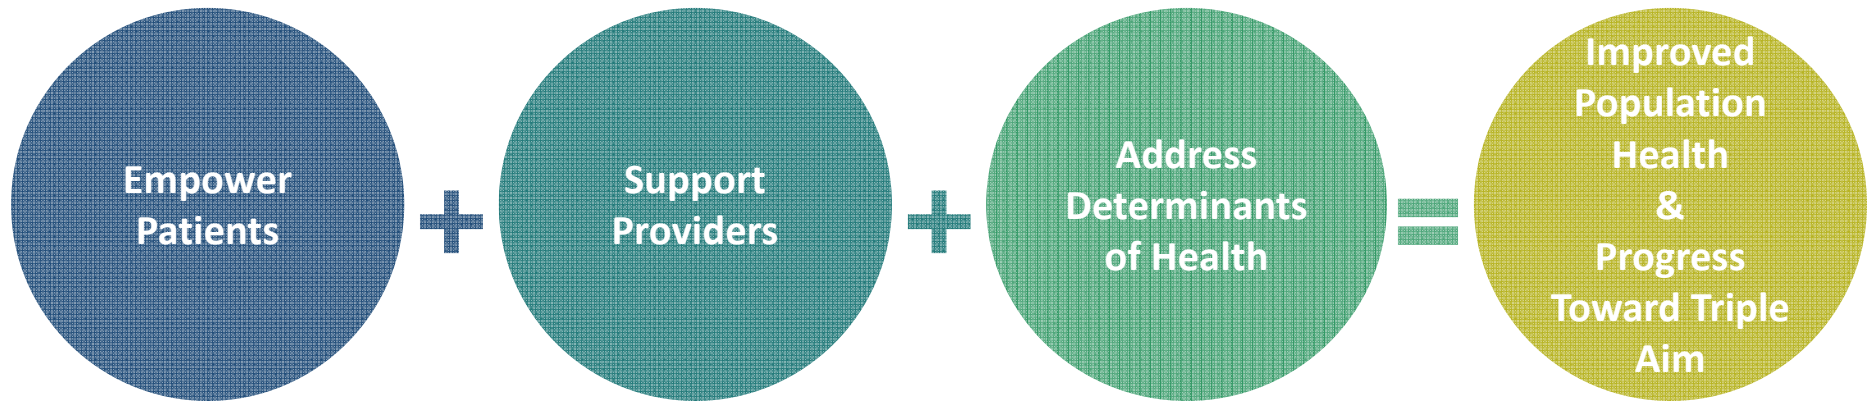

The Ultimate Goal

The Triple Aim

SIM Theory of Change

SIM Strategies

Linking Payment to Outcomes

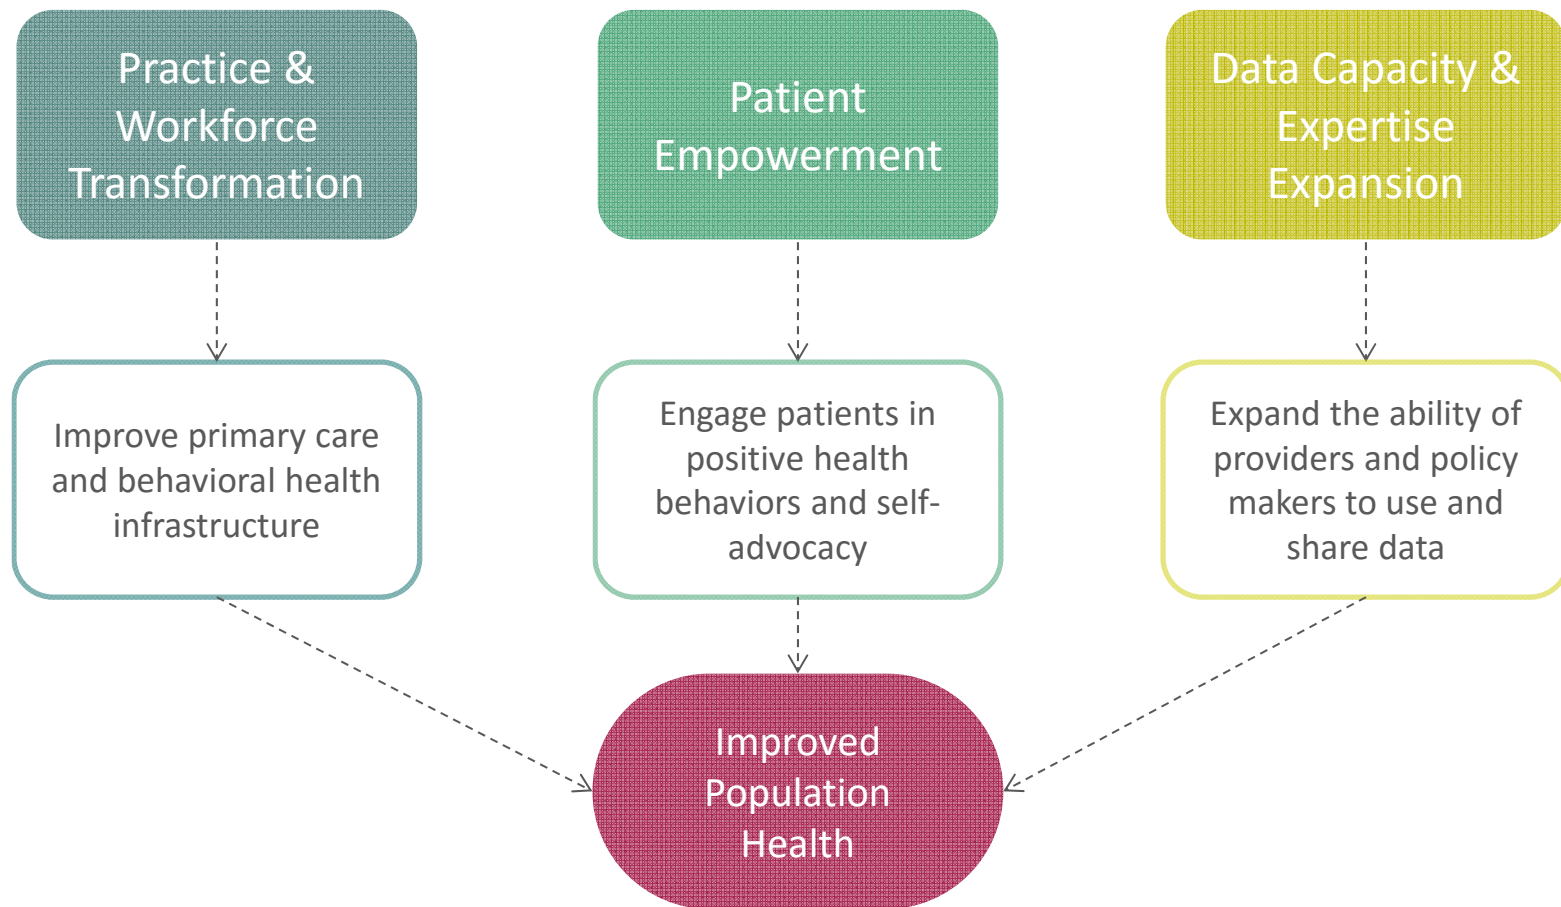

Developing Infrastructure for Quality Care

Planning and Aligning for a Healthy Population

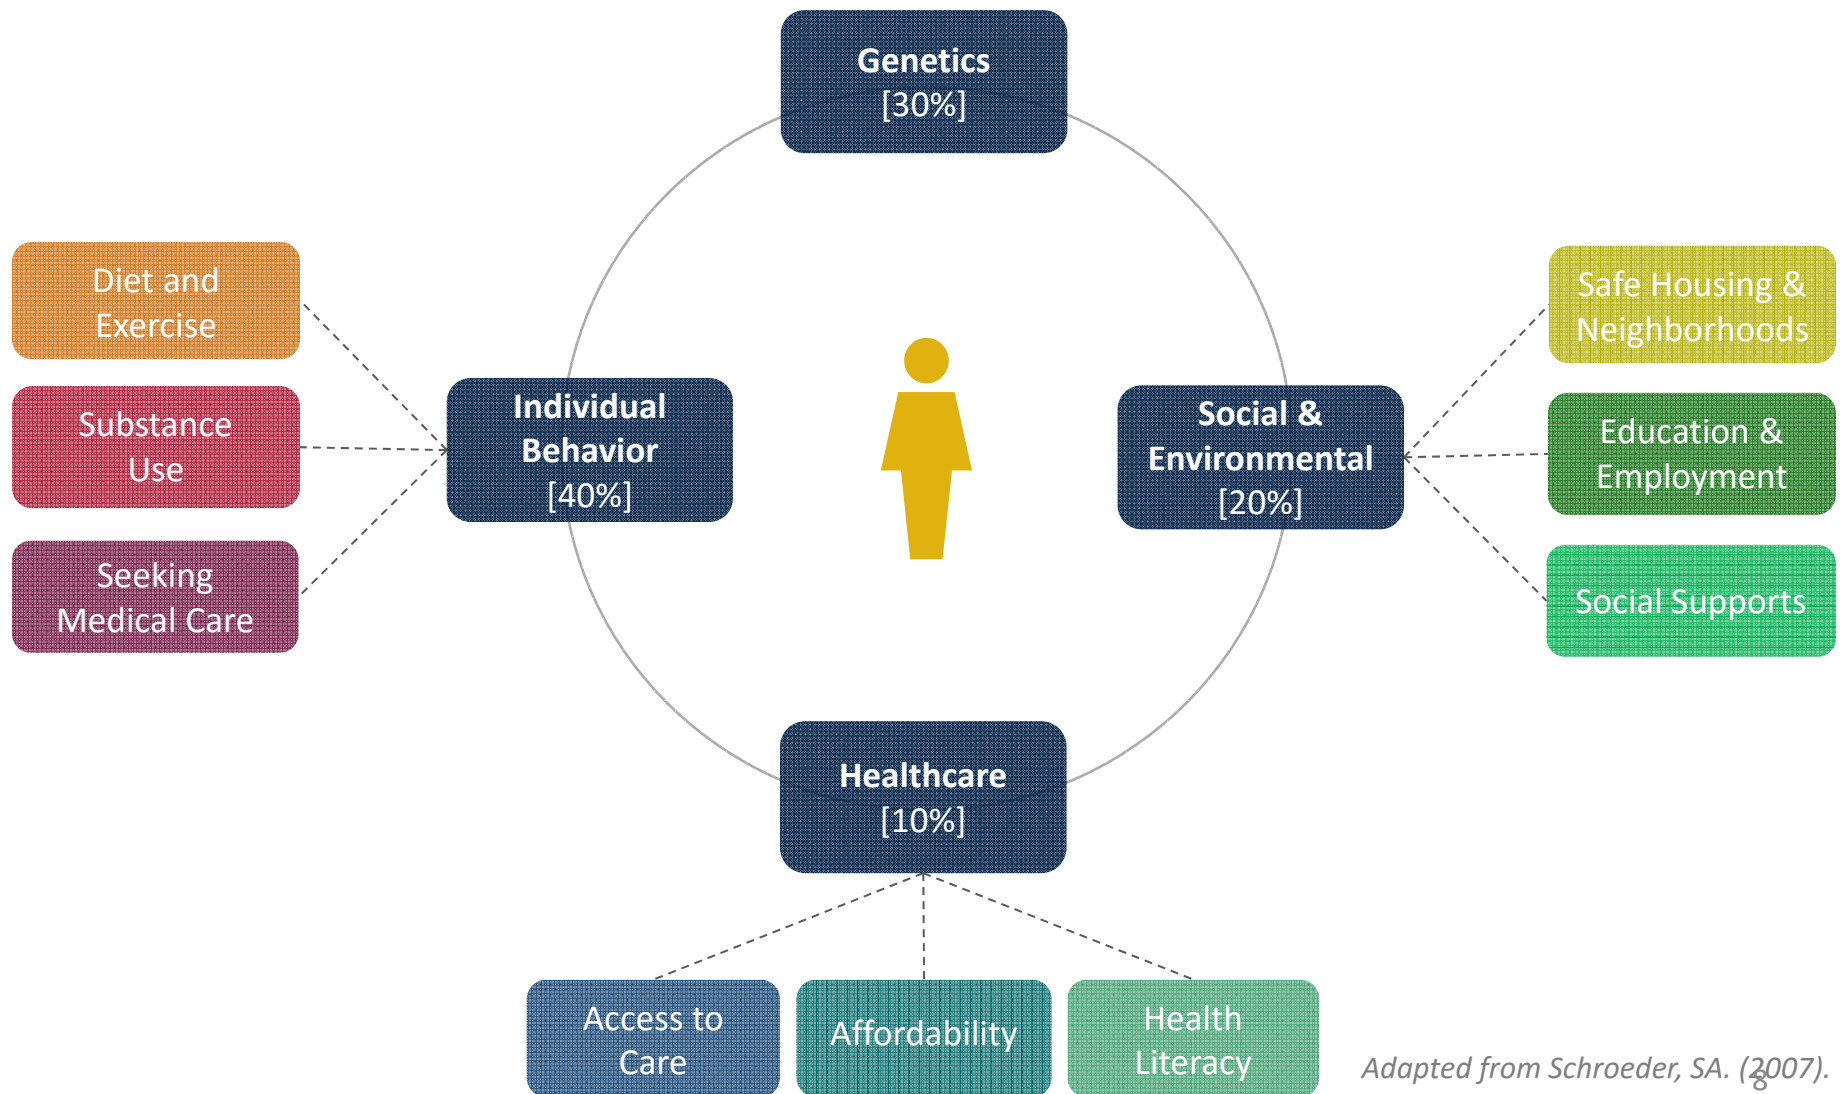

SIM Investments

SIM funds are supporting 3 categories of activities

What determines Population Health?

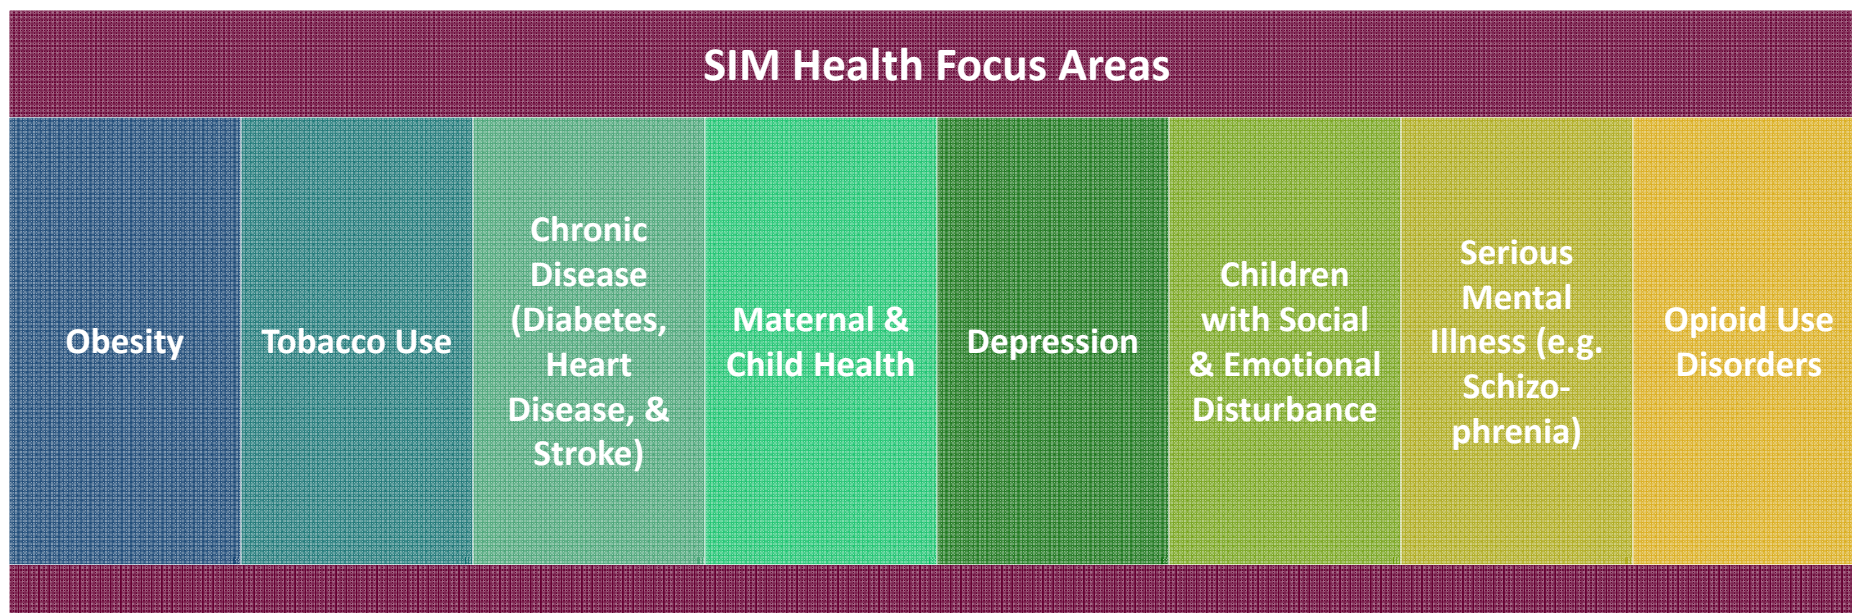

Determinants of Health

Adapted from Schroeder, SA. (2007).

What is the SIM Integrated Population Health Plan?

A report describing the **physical** and **behavioral** health of Rhode Islanders using **8 focus areas**:

SIM Patient Engagement RFP Process

Priorities for Patient Engagement

Focus on high risk patients

Target prevention, detection, & triage

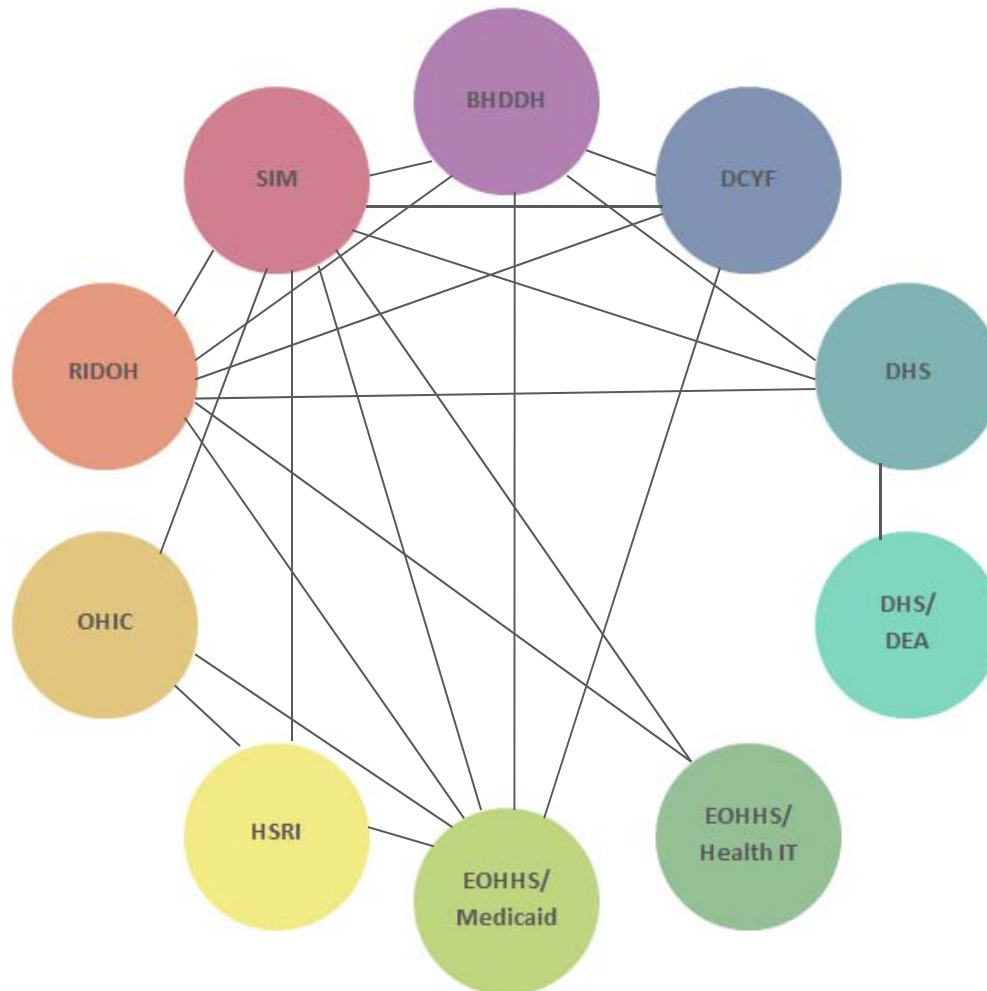

Leverage the patient-provider interaction

Connect the provider office to the community

Recognize what happens outside the provider office

SIM Integration & Alignment Project

Facilitating and supporting Integrated Population Health Collaborations in 1-2 Health Focus areas.

Our questions: Expanding SIM's impact

Help
Us
Learn
More!

- How does SIM's focus on Integration and Alignment as *one way* to tackle Population Health line up with your organization's mission and work?
 - Do you see opportunities to partner or collaborate?
 - Who else should we talk with about SIM?
 - Your questions and insights.

Our Questions: Understanding your work in Population Health

Help
Us
Learn
More!

- What drives your programmatic decision-making in order to help children and families achieve their best health possible?
- How do you address identified barriers? Systemically? Informally? In other ways?
- Are you able to expand successful strategies and approaches?
- How is your understanding of the social determinants of health influencing tactics, strategy and partnerships?

Get Involved

-  Help spread the word: Host a SIM presentation or listening session
-  Stay informed: Join our mailing list to receive public meeting notices
-  Be part of the conversation: Attend SIM public meetings
-  Get involved in the work: Be part of the future IPH Collaborations
