- History and challenges
- Project reset
- 90-day trial
- New methodology & approach

Agile Process

What's different?
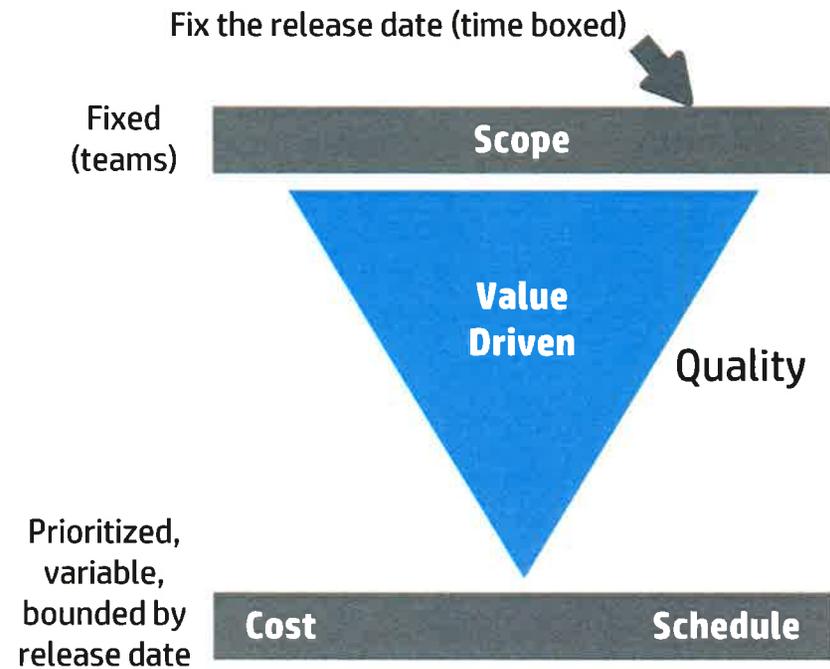

Waterfall

Release 1 | Release 2 | Release 3

Fixed

Scope

Quality

Plan Driven

Estimated and fixed

Cost   **Schedule**

Agile

Fix the release date (time boxed)

Fixed (teams)

Scope

Value Driven

Quality

Prioritized, variable, bounded by release date

Cost   **Schedule**

90-day effort: success factors

Achievements
- Delivery approach was well received
- Benefits delivered include:
  - Transparency
  - Collaboration
  - Efficiency
- All process, functional and program level success factors were achieved
- Established a foundation for successful delivery going forward

New baseline and path forward

- Alignment regarding project re-baseline

- Team collaboration

- Continued improvement on citizen services

- Commitment to project success

Thank you
