Subject: Oppose H7105

You don't often get email from jrsatlow@gmail.com. [Learn why this is important](#)

To the Committee,

I, like many other residents of the City of Providence and State of Rhode Island **oppose unhealthy noise and other toxic emissions from leafblowers**, and think they should be regulated just like other sources of pollution.

I opposed the proposed legislation which would void the bill banning leafblowers. .

When we bought our home 20 years ago, we lived on a quiet block. The increased usage of leaf blowers has been destructive of my neighborhood. I am a writer and college teacher and leaf blowers interfere with my livelihood. I am unable to work in my home office when they are being used by my neighbors. Between my four immediate neighbors, the noise is constant during good weather. There is always at least one neighbor having their lawn done.

Please do not pass this legislation.

Sincerely,

Jacqueline Satlow
