You don't often get email from brucebaldani@outlook.com. [Learn why this is important](#)

I am a 20 year resident of 87 Cooke St in Providence and I am tired of and am against the use of Leaf Blowers and any other loud landscaping equipment in the area.

I am constantly calling the landscaping companies and even talking to the workers when they start up the equipment at 8 or 830 am on all days of the week all spring summer and fall to tell them to start later in the day as the equipment is loud and intrusive. It is unhealthy, loud and obnoxious. It is also illegal at any time of the day since this equipment is over 65dbs at the edge of the property. They need to be banned outright or at the very least have some kind of time limit between 10am and 4pm.

I am so fed up I fully intend to purchase a db level meter this spring and get a documented noise level to bring to the Providence PD to file a complaint any time my sleep is disturbed by these machines because excessive noise and a lack of healthy sleep are both health hazards. I pay a lot of money and taxes to live here and I don't think businesses from outside the area should be able to come into my neighborhood like they own it and create health issues for all the residents that live there.

Sincerely,

Bruce Baldani
