FOR

As an owner of a battered hospitality venue I ask respectfully that you consider passing bill 7060 in favor of restoring "HAPPY HOUR"

Please consider not only the financial benefits to the venue, but the socialization and increased income to our employees who will benefit immensely from this added income. Happy Hour is a proven marketing method to also showcase the venue at a reduced price. I also add that food should be paired with any alcohol served as a condition. Responsible Alcohol service is not associated with a specific time. It is the same at 5:30 as it is at 9:30 or 11:30.

Thank you for your consideration,

Anthony Santurri
