Subject: Electric license

Hello,

My name is Alex Chancas I'm a registred apprentice in the state of RI, I'm writing to you today because of bill H-7015. We in the electrical trade rely on the work that's given to us and we strive for excellence and take pride in our day to day work we do. What's behind our expertise is dedication to the trade for years with training and expert knowledge passed down to us. This new bill would cut and undermine all we're striving for. behind an journeyman's license is 5 years of schooling and 8000 working hours these men and women rely on the woke to support our families and this bill would cut into that please reconsider this new bill from letting other trades leech into ours.
