Subject: Bills H7720 & HB 8143

Good Morning:

I, Peter Solomon, owner of Anthony's Pharmacy, am writing to extend my support for the above referenced Bills slated to be heard by the legislature. Pharmacies need a level playing field in our industry in order to survive as independents as well as provide a necessary and vital support system for our communities. Failure to ensure this level playing field will eventually cause the independent pharmacies to become obsolete – which would be a major misfortune for the pharmacy profession in relation to those independents whose livelihood depend on being able continue to sustain their community businesses. The limits and hurdles the above Bills are aiming to alleviate will allow the independent pharmacy to continue to do business in a fair and competitive manner.

It should be noted that any other profession that had to overcome the hurdles that the independent pharmacies are faced with would not be able to sustain their businesses within these confines and restraints.

I ask that you give due consideration to pass the Bills H7720 & HB 8143.

Best regards

Peter Solomon
