

DATE: April 11, 2024

TO: Rep. Joseph Solomon, Jr., Chair  
 Rep. William W. O'Brien, First Vice Chair  
 Rep. Justine A. Caldwell, Second Vice Chair  
 & Members of the House Corporations Committee

RE: Support for House Bill 8041, An Act Relating to Insurance – Prescription Drug Benefits

**We wish to express our strong support for House Bill 8041, a much-needed bill that will protect patient access to co-pay assistance many Rhode Islanders depend on to cover significant portions of prescription medicine co-pays.** We thank you for co-sponsoring similar legislation in the past, and for scheduling today's hearing on this measure as this gives the patient advocacy community the opportunity to express how vitally important this measure is to many Rhode Islanders.

We are grateful to our lead sponsor, Representative Mia Ackerman, for introducing H8041, and to Representatives Donovan, Spears, Edwards, McNamara, Serpa, Kennedy, & DeSimone for co-introducing this legislation. We are heartened to see the success of this legislation so far this year, having just passed the full Senate unanimously in March 2024. We look forward to working with Chair Solomon, Members of the House Corporations Committee, and the full House of Representatives to pass this legislation this year.

The need for co-pay assistance for prescription medicine is especially critical for Rhode Islanders whose high deductible health insurance plans require them to spend thousands of dollars before their insurance kicks in. For many, this high cost sharing requirement makes it impossible for them to afford medications needed to treat a range of chronic and sometimes rare diseases without the co-pay assistance offered by a number of pharmaceutical manufacturers, charitable organizations, and others. And many of these programs exist for drugs without generic alternatives.

Regrettably, health insurers have worked to block patient access to this much needed assistance. Over the last several years, an increasing number of health plans and pharmacy benefit managers have begun implementing copay accumulator adjustment programs to prevent third-party financial assistance from counting towards a patient's out-of-pocket obligation, essentially negating any benefit to the patient.

**House Bill 8041 would remove existing barriers to copay assistance by requiring all payments made by patients—directly or on their behalf - be counted toward an individual's overall out-of-pocket maximum payment or deductible.** Requiring health insurance carriers to do so will protect patients from surprise bills and treatment delays as well as allowing individuals to utilize the full benefit of co-pay assistance programs.

To date, 20 states as well as DC and Puerto Rico have already stopped this discriminatory practice by passing legislation that bans harmful accumulator policies – Arkansas, Arizona, Colorado, Connecticut, Delaware, Georgia, Illinois, Kentucky, Louisiana, Maine, New Mexico, New York, North Carolina, Oklahoma, Oregon, Tennessee, Texas, Virginia, Washington, and West Virginia.

Many of us represent patients in the neighboring states of Massachusetts and Connecticut. We are heartened that Connecticut recently passed and Massachusetts is currently considering similar legislation to ensure patient access to co-pay assistance. We hope the Rhode Island General Assembly will join our neighbors on this issue and ensure that all Rhode Islanders have access to their medication.

Some of us who have signed this letter will also be testifying to provide more details on how critically important co-pay assistance is for individuals with different types of chronic diseases. **We strongly urge passage of House Bill 8041 and thank you once again for the opportunity to provide testimony today.**
