Subject: Support for H5816: Affordable Clean Energy Security Act

Testimony in support of H5816: Affordable Clean Energy Security Act

Lavinia Gadsden
165 East Main Road
Little Compton, RI 02837

Date of Hearing: April 1, 2025

It is important that we do everything we can at the State Level to address the issue of the use of fossil fuels as a source of energy.
Offshore wind is essential as a means toward that end.
This bill will help us reach our energy, climate and economic goals of 100% renewable energy by 2033.

Please bring the bill to a vote in 2025.
