Subject: support of Bill H-5816

To Whom it May Concern;

I, Padmini Manrai, resident of 50 park row west, Providence, am testifying in support of Bill H-5816, in favor of expanding our offshore wind.

Although relatively new to Providence, my family and I have long been proponents of supporting and building a resilient local clean energy supply.

While no technology is without its faults, offshore wind power and this bill are an important and necessary step in cutting pollution, reducing fossil fuel dependence, and creating local jobs.

For a resilient future for all of us in RI, I strongly urge you to support and pass this bill.

Thank you for your consideration and your service in building a better RI future.

Sincerely,

Padmini
