

Testimony in support of H6085: Net-Metering – Preferred Site Cap Removal

Dr. Hans Scholl, 71 Fales Avenue, Barrington, RI 02806

Date of Hearing: April 1, 2025

To Chair Solomon and the honorable Members of the House Corporations Committee:

I support the bill because allowing preferred sites to be developed without being subject to the cap or rate reduction in the net-metering statute is one of the fastest, simplest and cost-effective ways to increase the scale and speed of solar development, at a time where we must do everything to accelerate the transition from fossil fuels to renewable energy.

Please bring the bill to a vote in 2025.

Thank you very much for considering my input, and thank you to Representative Speakman for introducing this important bill.

Dr. Hans Scholl
