

Rep. Joseph Solomon
House Corporations Committee
RI House of Representatives

OPPOSITION TO H6202 Moratorium on Net Metering

May 29, 2025

Dear Chair Solomon and Members of the Committee,

We are still in the midst of a climate crisis. Why on earth would anyone want to stop fighting for our planet? Rhode Island's net metering programs are working. There are plenty of other places to look to save money!

The heat pump programs are also working. Heat pumps reduce energy costs and green house gas emissions.

Please oppose this regressive legislation. Thank you.

Sincerely,

Joel Gates
