Representative Joseph J. Solomon  
Chair of House Corporations Committee  
82 Smith Street  
Providence, RI 02903

**RE: ACT Opposition to House Bill 6203: Renewable Energy Growth Program—Repeal**

Dear Chair Solomon and Members of the Committee,

The Alliance for Climate Transition appreciates the opportunity to submit comments in opposition to House Bill 6203: Renewable Energy Growth Program—Repeal.

The Alliance for Climate Transition ("ACT") leads the just, equitable, and rapid transition to a clean energy future and a diverse climate economy. Our 300+ members include companies from all of the clean energy market segments, many of whom are based in Rhode Island, do business here, or hope to make future investments in the state.

The Renewable Energy Growth ("REG") Program serves an important role in the state to allow distributed energy resources of all sizes with the opportunity to share the energy they produce with the electric grid. This type of development builds increased resilience in the state and supports the state's renewable energy goals. All of these energy resources need a way to connect to the grid and to know they will be properly compensated for their contributions to the system, which is exactly what the REG program provides.

On behalf of our members, thank you for your consideration and please do not hesitate to connect with us to continue stewarding the clean energy transition in Rhode Island.

Sincerely,

Oliwia D. Krupinska  
Policy and Regulatory Analyst
