

Dear Chair Solomon and members of the Committee,

I live in E. Greenwich. I am submitting testimony in support of H7727.

To meet our Act on Climate emissions reduction mandates, Rhode Island must continue deploying clean energy resources like offshore wind. Establishing an Offshore Wind Procurement Policy Commission will help the state develop a clear strategy to procure the offshore wind we need to meet our clean energy goals, strengthen grid reliability, stabilize energy prices, and support local jobs and economic development in the Ocean State.
