The Honorable Chair and Members House Corporations Committee

Re: H7722

Dear Chairman Solomon and Members:

I am writing this letter today in support of Bill H7722 because I truly believe that patients should have the right to choose their dentist/dental office without losing their insurance benefits.

95% of licensed dentists in RI are in-network with many dental insurance plans already. Bill H7722 will not change that. This is a prime example of how the insurance carriers set the terms of the contracts with little input from dentists themselves.

My office has lost patients due to them not being "allowed" by their insurance carriers to be treated by out of network dentists. Patients are forced to leave dental practices of which they have been a part of for over 20 years! This is not a fair practice for patients, with insurance companies being the only party involved that benefits from this by dictating where patients can be treated. In a free country like the one we live in, people deserve the right to choose who will treat them, without losing the dental benefits they are entitled to.

For the above stated reasons, I urge you stand up for what is fair, and support Bill H7722.

Respectfully submitted,

Dr. Paulo J DaRosa, DDS
