**Subject:** Support for Amended H8400

You don't often get email from chris.h.thayer@gmail.com. [Learn why this is important](#)

Dear Committee Members and House Leadership,

I support the proposed version of H8400 with the expiration date removed. I respectfully ask for you to vote this bill out of committee, recommending passage by the full chamber during this legislative session.

**The citizens of North Kingstown do not want a sewage sludge pyrolysis plant in their community.** Recent public comments have highlighted grave concerns regarding the accumulation of mercury—a known neurotoxin with long-lasting generational impacts—and benzene, an established class 1 carcinogen for which no safe exposure limit is known. With over 20 other hazardous particles and emissions documented in the pyrolysis plant's minor source air permit application, it is clear these facilities do not belong in the middle of our homes, schools, and sole water sources. We do not need to wait on commission results to tell us this is the wrong place for this type of technology.

Beyond the immediate need to protect community health, the expedited timeline and negligible public comment opportunities early in this facility's process have severely damaged the community relationship with the Quonset Development Corporation (QDC), an entity critical to both the town and state economy. Passing this bill without an expiration date will give the community the confidence that a new pyrolysis plant under a different LLC is not waiting right around the corner. This foundational safety is a critical precursor to bolstering and repairing the QDC-North Kingstown relationship that has served the state so well over the last several decades.

**Consider the children.** There are far too many schools and daycares located in the contamination zone. This is entirely unacceptable. Residents of NK and surrounding towns will not have the ability to enjoy outdoor recreation, either at their own homes or municipal recreation facilities. This will lead to an economic decrease.

Thank you for your time and service to our community.

Take care,  
Christopher Thayer
