Paint Care RI Program

To Whom It May Concern:

We are a drop-off site for the Paint Care RI program in northern Rhode Island, and have been participating in this program since 2014.

We will continue with this worthwhile program, as it is greatly appreciated by our customers, and members of the surrounding communities.

As a small family business, we are happy to provide such a valuable service to our community. We also are a drop-off site for recycling fluorescent bulbs, through the Clean Harbors program.

We offer these services during our normal business hours, following the Paint Care RI guidelines.

This is a valuable service and program, and we hope it continues. If you have any questions or concerns, please feel free to contact us directly. Thank you.

Sincerely,
Walter C. Chomka, Jr.
Manager
