**Subject:** New bills

Rep Morgan's flood of restrictive bills like H5739 are designed to mimic far right model legislation introduced in other jurisdictions.

The purposes are transparent and seek to deny educators and their students an understanding of real life.

We live in a world where people of different colors and sexual orientation prosper and contribute to society.

To pretend these do not exist by denying exposure in learning environments is foolhardy.

I hope that these related proposals do not leave committee

Thank you for your attention
