

**JAIDEN**

Hello my name is jaiden, I am a student in 12th grade in providence public schools and a youth leader with OurSchoolsPVD/YIA. I am writing to support house bill no.5836 implementing Ethnic studies statewide would impact me and my peers because we could learn new things about our culture that we don't know now such as food,dancing,clothing, language etc.As time goes our next generation could learn way more and feel more connected to "home" and can speak with confidence while talking to other about their culture.
