

Dear House Committee on Education,

I am writing to express my strong support for Senate bill 2078. This bill will require public schools to fund libraries, as well as have a certified school librarian assigned to every school.

Although this may sound like this is what happens already, this is something that is not happening in all of our schools.

Public school libraries offer access to books to students, and so much more. Our public school libraries assist various curriculums so that students can learn to research, learn media literacy, and achieve their goals.

I strongly implore you to pass this bill.

Sincerely,
Kim Yeaw
PCTA School Librarian
