Please don't throw the baby out with the bath water.

Please support public schools. Focus on improving what we already have and stop wasting time and our money.

How can we appropriately educate our children if we cannot prioritize funding and get behind our public educators who are held to a very high standard?

Are charter schools held to the same standards as our public schools?

We deserve to know what charter schools are actually costing RI taxpayers.

Is our money actually going to other states?

It's time to focus on the people you represent.
