**Subject:** H2524

You don't often get email from tryanrissa@gmail.com. [Learn why this is important](#)

The Rhode Island School Superintendents Association is strongly opposed to H2524, a bill that would put into law the basic workings of student management in public schools. We currently have policies in every district that deal with student discipline. This bill would supersede these policies and place major responsibilities on school principals beyond their capacity to perform their basic responsibilities.

Instead of burdening every principal because there are discipline problems in some schools with a law, RIDE should provide training for teachers and principals on student management.

Thank you.
