Hello Education Committee,

I am writing regarding 2 bills in particular being heard. First, H7898 I am in strong support of, I have literally dreamed of detectors into schools for nearly 40 years, when school shootings started at least being threatened in the 80's. I'm puzzled Rep DeSimone is the only sponsor. Be that as it may, I encourage it to be passed to the floor for a vote. We are long over safety of our community & children.

Next, I am in support of H7731 which would deal further with safety in schools. Especially considering the events of rec we need more in place for emergency response in schools.

thank you, Stacey Capizzano at 172 Veazie St, PVD 02908
