You don't often get email from courtm3984@gmail.com. [Learn why this is important](#)

To all the house education committee members,

My daughter and I attended the hearing on Tuesday for H8531 and testified in opposition as homechoolers. I just want to thank the committee members for your patience and attentiveness towards so many who came to testify and so late into the evening. You not only exemplified for all of the teens and kids how state representatives listen to feedback and input from their constituents, but also provided such a learning opportunity regarding procedures for legislative committees and the process bills go through.

With gratitude,  
Courtney Goglia
