Good morning,

While I was unable to attend Tuesday's hearing in person, I was able to watch the video recording afterwards. As a former elementary school teacher turned homeschool mother, I want to extend my thanks to every committee member who so patiently and respectfully heard the testimony of each parent and child standing before you. It brings me such pride knowing that I'm part of the RI homeschool community and the State of RI itself. This hearing set such an example to all the children involved. Thank you.

Sincerely,
Marissa Salisbury
