Dear Chairman and Members of the House Education Committee,

Thank you for listening to the homeschool community with patience and respect on Tuesday evening. We appreciated the opportunity to share our concerns about H.8531, as well as the opportunity to show our children how bills are considered in the Rhode Island State House.

The next day, my three-year-old daughter told me, "I want to go to more governments again."

We appreciate your service to the people of Rhode Island and your willingness to hear from so many families.

Sincerely,
Tara Shoemaker
