Clean Air Preservation Act
February 5, 2024

Chair Bennett and Committee Members:

As a mother of young children and a farmer of vegetables and
livestock,

I urge you to pass the RI Clean Air Preservation Act.

The White House states on page 15 of its June 2023 document
on Solar Radiation Modification that “a variety of unintended
outcomes of SRM are not well understood, and there may be
others of which we are not aware.”

What we do know for sure is that spraying the pollutants of
aluminum, strontium, barium
and sulfuric acid is unhealthy and dangerous to human and
