**Subject:** Support for H7295 the RI Clean Air Preservation Act

Dear Louis Mansolillo,

Claire has offered to read my statement for me because I am unable to do so.

Below is my statement in support of H7295 the RI Clean Air Preservation Act:

I strongly support H7295 the RI Clean Air Preservation Act. I strongly oppose the White House's solar radiation modification program. I do not consent to the pollution and radiation pollution from the solar radiation modification program. The remedy to it is H7295. I want my Rhode Island legislatures to protect me, my family, fellow Rhode Islanders and our environment by passing H7289.

Sincerely,  
Elizabeth Handford
