Subject: PRO H 7295

Dear Louis Mansolillo,

My name is Victoria Leyden, I'm a third generation tree farmer in West Greenwich RI and an alumni student to URI for biological and environmental sciences. I strongly oppose the White House's solar radiation modification program. I strongly support h7295 the RI Clean Air Preservation Act. I do not consent to the pollution and radiation pollution from the solar radiation modification program. The remedy is H7295. I want my RI legislators to protect me, my family, fellow Rhode Islanders, and our ever changing, small Rhode Island natural environment by passing H7295.

Thank you,

Victoria Leyden
