Subject: Time for Real Recycling Reform

Dear House Environment and Natural Resources Committee,

As a lifelong Rhode Islander, I care about our neighborhoods, our Bay, and making sure working families and small businesses aren't stuck paying for a broken recycling system.

Please pass H 6207 and S 996—the modern Bottle Bill and EPR—before session ends.

Too many bottles and cans are ending up as litter or in the landfill, while taxpayers and towns cover the cost. Let's get recycling reform done!

Sincerely,
Michael Casto
