

SUPPORT THE PASSAGE OF A RI BOTTLE BILL

The proposed R.I. Bottle Bill would place a refundable 10 cent deposit value on all beverage containers sold in the state, which would be paid by the consumer, then refunded once the bottle is returned to a retailer or recycling center. States and countries with bottle bill systems in place have less litter and marine debris, as well as better recycling.

We, the undersigned petitioners, do hereby petition the State of Rhode Island in support of the proposed Bottle Bill

SUPPORT THE PASSAGE OF A RI BOTTLE BILL

The proposed R.I. Bottle Bill would place a refundable 10 cent deposit value on all beverage containers sold in the state, which would be paid by the consumer, then refunded once the bottle is returned to a retailer or recycling center. States and countries with bottle bill systems in place have less litter and marine debris, as well as better recycling.

We, the undersigned petitioners, do hereby petition the State of Rhode Island in support of the proposed Bottle Bill

SUPPORT THE PASSAGE OF A RI BOTTLE BILL

The proposed R.I. Bottle Bill would place a refundable 10 cent deposit value on all beverage containers sold in the state, which would be paid by the consumer, then refunded once the bottle is returned to a retailer or recycling center. States and countries with bottle bill systems in place have less litter and marine debris, as well as better recycling.

We, the undersigned petitioners, do hereby petition the State of Rhode Island in support of the proposed Bottle Bill
