House Environment and Natural Resources Committee
Rhode Island State House
82 Smith Street
Providence, Rhode Island 02903

Dear Chair Bennet and members of the Committee,

My name is Christopher Cheney, I live in Providence, and I am writing in support of House Bill 8132. The current uncertainty of our fossil-fuel-based energy system makes clear the necessity for better methods of heating. This would be the first step to protecting residential buildings from price spikes in fossil fuels and making a substantial dent in their emissions.

Sincerely,
Christopher Cheney
