RE: Support for H7004

DATE: March 22, 2026

TO: Chair Bennett and honorable members of the House Environment and Natural Resources Committee:

My name is Caroline McPherson and I live in East Greenwich, RI.

I am writing to urge you to support the Climate Superfund Act, H7004 (Boylan), which allows the state to recover financial damages from fossil fuel companies for costs due to climate change.

Our children and their children deserve a future that is healthier, more stable and sustainable than the path we are currently on. By holding the polluters accountable and investing in climate resilience, H7004 helps ensure the burden of today's climate challenges do not fall disproportionately on future generations.

Vermont, New York, and Maryland have passed similar legislation. It's time for Rhode Island to do the same. Please pass this bill out of committee and to the House floor with a recommendation for passage.

Sincerely,

Caroline McPherson / E Greenwich, RI

Lou Mansolillo
