Dear Chair Bennett and members of the Committee,

My name is Christopher Cheney, I live in Providence, and I am submitting testimony in support of bill 7004. This bill would place responsibility on the companies that cause the enormous damages of climate change. They have been allowed to externalize the true costs of their business on the whole of society and we all suffer because of it. Making them pay for the damages they caused is not a radical idea, it's the least we should do.

Sincerely,  
Christopher Cheney
