

Testimony in support of H7069: Energy Facility Siting Act

Barbara Walsh, 62 Frederick Street, Warwick, RI 02888

Date of Hearing: March 25, 2026

To: Chair Bennett and the Honorable Members of the House Environment and Natural Resources Committee

This is a practical and timely bill. Currently there is no 'clean coal'. It does not exist. The federal government, Department of Energy has authorized over \$100 million to 'research and develop' 'clean coal'. This is a complete waste of federal dollars, as actual clean energy already exists and should be supported by the Siting Board.
