

Testimony in support H 7069: AN ACT RELATING TO STATE AFFAIRS AND GOVERNMENT --
ENERGY FACILITY SITING ACT

George Voutes, 17 Shore Road, Bristol RI, 02809

Date of Hearing: March 25, 2026

To Chair Bennett and the honorable Members of the House Environment and Natural
Resources Committee:

I submit testimony in support H 7069. Removing clean coal as a renewable fuel and given priority as an energy generation project is long overdue in RI. There is no “clean coal”. There is no “clean coal as a renewable source of energy”.

The level of mis and disinformation about coal as a renewable fuel source is at an all time high in the US. Please do not take the bait about these lies, but please do advance this important bill.

Thank you very much for considering my input, and thank you to the caring House Representative for introducing this important bill. It will benefit all Rhode Islanders.

George Voutes
