Dear Chair Bennett and members of the Committee,

My name is Christopher Cheney, I live in Providence, and I am submitting testimony in opposition of bill 7531. This repeal of the 2021 Act on Climate would severely harm our future, hurt quality of life, and make the entire world worse, and serve no ends other than maybe making a handful of people richer for a short period of time before their sources of revenue become further obsolete.

Sincerely,  
Christopher Cheney
