**Subject:** Trees

You don't often get email from marjory.stevens@gmail.com. [Learn why this is important](#)

I am in support of passing the Natural forest Preservation Act. I live in Wakefield and see how forests are clear cut to make way for housing developments. In addition, besides forests, I see that large street trees are being removed from many streets that were once tree-lined.

Trees are a valuable natural resource, especially in a small state bent cutting down trees to put up solar panels.

I hope this Act comes to fruition.

Thank you,  
Marjory Stevens  
Wakefield, RI
