To the RI State Legislature,

I support the Natural Forest Protection Act H 7914 to protect our state's trees and wild areas. We must preserve our forests in order to mitigate climate change, for carbon sequestering, and for the wildlife that these areas support. So much of what is beautiful here in Rhode Island is its forests and coastline. In order for us and for future generations to continue to benefit from them, both for recreation and for the attraction of tourists (and tourist dollars), we need to do the right thing and pass this legislation.

Thank you for your consideration.
