You don't often get email from randywatts@uri.edu. [Learn why this is important](#)

To: House Environment and Natural Resources Committee

Dear Chair Bennett and Members of the Committee,  
My name is Randolph Watts and I am a voting resident of Kingston, Rhode Island.

Please support House Bill No 7183 BUILDING BENCHMARKING AND REPORTING ACT OF 2026

Building benchmarking and reporting is an essential step toward fulfilling the Act on Climate. Buildings are one of the top two problems that contribute carbon pollution to our atmosphere. It is important to conduct this benchmarking to understand how to reduce the amount that they produce.

Thank you for the work you do and for your consideration.
